

KEMET MOULD CLEANING MACHINES

The bench top and floor standing machines provide an efficient and low cost method for mould cleaning. By using a Kemet mould cleaning machine, you can achieve cleaner moulds with reduced manual labour and no wear – leading to large cost savings.

Standard features for floor standing machines include:

- Wash tank & rinse tank
- Stainless steel construction
- Thermal and noise insulation
- Surface liquid skimming and weir in wash tank
- Low liquid level protection
- Thermostat controlled heating
- Drain valve
- Water inlet

Advantages include

- No solvents used
- Cost saving
- User friendly
- No time wasted
- No manual labour
- No abrasion
